Financial & Operations Analyst | Associate | Strategy & Business Development
joseph.markinyah@gmail.com ▪ +234 815 910 9506 ▪ Lagos, Nigeria

PROFILE

Results-driven, organized and highly analytical Executive Assistant (EA), finance and operations professional with demonstrated exposure to executive/C-suite decision-making, cross-functional operations, and financial analysis within high-stakes investment and property environments. Proven track record of maintaining up-to-date, periodic accounting records & processes, supporting the preparation of audited financial statements & management accounts, as well as building and maintaining systems that measurably improve organisational efficiency, prepare investor-ready financial models & reports, and facilitating liaisons across governmental, legal, and corporate stakeholders. Delivers the analytical rigour of a Mathematics graduate, the discretion demanded of a Chairman's trusted EA, and the communication clarity and confidentiality required in high-level corporate environments where quantitative skill, operational excellence, and strategic thinking converge.

CORE COMPETENCIES

Financial Analysis ▪ Accounting & Audit Processes ▪ Financial Modeling ▪ Financial Reporting & Bookkeeping (Excel) ▪ Stakeholder & Executive Liaison ▪ Microsoft Office Suite & Google Workspace (Advanced) ▪ Cross-Functional Operations Management ▪ Data Analysis (SPSS, Excel) ▪ Strategic Planning & Reporting ▪ Business Process Optimisation ▪ Project & Calendar Management ▪ Quantitative & Qualitative Research ▪ Discretion & Corporate Governance ▪ AI Systems & Digital Tools

WORK EXPERIENCE

Associate | PKF Nigeria **Aug 2026 – Present**

- Supported statutory and external audit engagements across a portfolio of client organisations within the Audit and Assurance department.
- Assisted audit teams with fieldwork, including verification of financial statement line items, testing of transactions and supporting schedules, and review of client documentation for completeness and compliance with applicable auditing and financial reporting standards.
- Supported the preparation of audit working papers and engagement documentation in line with firm methodology and International/IFRS Standards, while collaborating with senior auditors and engagement teams to gather, organise, and cross-check client-supplied financial data ahead of review.

AI Facial Data Collection Contributor | micro1 (Remote) **Aug 2026**

- Captured and submitted facial image data for AI model training datasets, following detailed client specifications on lighting, angles and image quality.
- Checked every submission against quality guidelines and data-privacy requirements before delivery, meeting review standards and deadlines while working independently.

Executive, Administrative & Operations Analyst (EA To The Chairman) | Fish Valley Investments & Property Limited **Jan 2024 – Jul 2026**

- Served as a strategic interface for the Chairman, coordinating across internal departments of Finance & Accounting, Operations, HR, Legal, IT, and Security while managing external relationships and liaising directly with Consultants, including Arup, KOA & APD Project Management; Banks; Contractors, such as Dutum, Megawatts, Mar & Mor, etc; and several Governmental Agencies in order to drive critical project infrastructure development and regulatory compliance across a multi-entity real estate investment consortium.
- Provided direct support to senior leadership during a high-ticket capital expansion round, contributing to project finance financial modelling, investment analysis, and the preparation of management accounts and board-level financial reports, and was involved in the preparation of audited financial statements in compliance with applicable IFRS standards, supporting external auditing processes with top-tier accounting firms.
- Maintained full-cycle, periodic accounting records across multiple company entities, encompassing double-entry bookkeeping, journal adjustment entries, trial balance preparation, end-of-period accruals, petty cash administration, and payment voucher processing with strict adherence to internal approval and documentation controls.
- Designed and implemented efficient Excel-based operational databases and reporting systems that reduced executive reporting delays by 40%, while conducting detailed bank statement analyses, multi-account reconciliations, and scenario modelling/analyses on datasets exceeding 5,000 records.
- Drafted, reviewed, and analysed complex briefing documents, cash flows, investment memoranda, and stakeholder correspondence for the Chairman — leveraging AI tools including ChatGPT and Claude AI to accelerate research synthesis — while maintaining strict confidentiality over highly sensitive executive information, undisclosed financial figures, board-level decisions, investment strategies, and proprietary business data.

References available upon request

- Managed a dynamic executive portfolio of 15+ high-priority monthly commitments — including investor engagements, government-level appointments, board and stakeholder meetings (producing structured minutes with clear action points, owners, and deadlines), and domestic, interstate and international travel logistics for the Chairman — while conducting detailed market research and information gathering to support executive management with structured data, risk assessments, and report summaries.

RESEARCH EXPERIENCE

Research & Academic Consultant | Freelance **Aug 2022 – Present**

- Delivered quantitative and qualitative research services for 50+ academic and institutional clients, applying SPSS and Excel skills to produce statistically robust analytical outputs, meeting average turnaround times of 14 days with a high client retention rate of 90% across business, education, mathematics, science and social science disciplines.
- Designed and streamlined structured research reports and data visualisations, consolidating complex datasets into actionable insights and improving client presentation quality.
- Provided end-to-end research consultancy, from research design and data collection methodology to final report writing, consistently meeting tight academic and professional deadlines.
- Built strong client relationships through clear communication, professional discretion, and consistent delivery of high-quality analytical work, generating substantial repeat and referral business.

VOLUNTEER WORK

Academic Mentor | Volunteer **Nov 2021 – Dec 2025**

- Provided academic mentoring to secondary school students from both under-resourced backgrounds as well as private tutelage, delivering structured instruction in Mathematics, Physics, Chemistry, as well as other subjects, as required.
- Privately tutored 2 Secondary School students through Grades 7 and 11 respectively:
  - Introduced foundational numeracy and literacy frameworks that resulted in a 45% improvement in standardised test performance, enabling the Grade 7 student to secure a place at a competitive Secondary School and;
  - Facilitated progress from a failing grade to a 60% improvement in assessment scores over three academic terms through a tailored revision programme and weekly structured sessions for the student in Grade 11, ensuring admission into their desired University.
- Designed bespoke learning materials and progress-tracking tools for each student, demonstrating the same analytical and reporting competencies applied in professional contexts.

EDUCATION

University of Lagos (UNILAG), Akoka Lagos, Nigeria
